

# TORA III

Texas-Oklahoma Representations and Automorphic Forms

September 28-30, 2012

at

The University of Oklahoma

The TORA conference series is organized by the Mathematics Departments of Oklahoma State University, the University of Oklahoma and the University of North Texas

## Plenary speakers

Paul Garrett  
The University of Minnesota

Wen-Ching Winnie Li  
Penn State University

Alia Hamieh  
The University of British Columbia

TORA is a conference series hosted in rotation by University of North Texas, Oklahoma State University, and the University of Oklahoma. The TORA meetings will bring together the automorphic forms and representation theory community of the South Central region to hear about recent research in automorphic forms and representation theory. Graduate students and junior researchers are particularly encouraged to attend. Funding for TORA is provided by the National Science Foundation and the host universities.

## TORA III Scientific Committee

Mahdi Asgari (OSU) Charles Conley (UNT) Kimball Martin (OU) Ameya Pitale (OU) A.Raghuram (OSU) Olav Richter (UNT) Ralf Schmidt (OU) Anne Shepler (UNT)

If you are interested in attending TORA III, please send an e-mail to one of the local organizers:
