Math 4163 — Intro. to Partial Differential Equations (Tulsa campus)
Fall 2014
Course Syllabus

Instructor: John Albert
  Office: PHSC 1004
  Phone: 325-3782
  Office Hours: Monday, Wednesday, and Thursday 11:00 am to 12:00 pm, or by appointment

Course Content: We will cover topics from the first ten chapters of the course text, which is "Applied Partial Differential Equations (with Fourier Series and Boundary Value Problems)", by Richard Haberman. We are using the fifth edition of the text, but the fourth edition should be usable too.

Information about the course, such as homework assignments and test dates, will be posted on the course page at D2L (**learn.ou.edu**).

Grading: The course grade will consist of the following components: weekly homework assignments (50%); one midterm exam (20%); and the final exam (30%).
