

**CALCULUS II — UNIV 2000 — COURSE INFORMATION  
SPRING '09**

**Instructor:** John Albert

*Office:* PHSC 1004

*Phone:* 325-3782

*E-mail:* jalbert@ou.edu

*Office Hours:* M, W 2:30–3:30, Th 10:30–11:30 (or by appointment)

**Course Materials:** The text for this course is “Calculus (6th edition)” by J. Stewart. We will cover chapters 7, 8, 9, 11, and 12.

Information about the course, such as homework assignments and test and quiz dates, will be posted on my web site at [www.math.ou.edu/~jalbert/courses/u2000sp09.html](http://www.math.ou.edu/~jalbert/courses/u2000sp09.html) .

**Grading:** The course grade will be made up of the following components:

- Seven 20-minute quizzes, worth 20 points each. Lowest two scores are dropped.
- Weekly homework assignments.
- Three 50-minute exams, worth 100 points each; and a two-hour final, worth 200 points. Lowest exam score is dropped; if the lowest percentage score is on the final, then half of the final exam score is dropped.

The final letter grade for the course is computed as follows: First, your homework score is computed by adding the points obtained on all your homework assignments, then dividing by the total number of points possible, and finally multiplied by 100 (so the maximum score is 100 points). This is then added to the sum of the points on your five best quizzes (100 possible), and the sum of the points on your exams (400 possible) to obtain your final score (600 possible). This final score is what determines your letter grade. The minimum score for an A is 525 points (this number is obtained by adding 80 homework points, 85 quiz points, and 360 points, or 90%, from the exams.) The minimum score for a B is 430, the minimum score for a C is 335, and the minimum score for a D is 240. Depending on how class grades are distributed, the minimum scores needed for grades of B and C may be adjusted downwards, but the minimum scores needed for A and D are solid.

**Exam Schedule and Make-up Policy:** The final exam is scheduled for Monday, May 11 from 1:30 pm to 3:30 pm in Physical Sciences 122. The other exams will be given during regularly scheduled class periods, on dates to be announced later.

If you are unable to attend a test because of illness, please call me BEFORE the test begins. If I am not in my office, leave a message for me at the Mathematics Department; the number is 325-6711. I will arrange a make-up exam. Other potential reasons for make-up exams include absences related to other university coursework. These should be discussed with me in advance.

In general, make-ups will not be given for quizzes, and late homework will not be accepted.

**Academic Integrity:** Consult the webpage <http://www.ou.edu/provost/integrity> for a discussion of academic integrity and academic misconduct. For a discussion of faculty and student rights and responsibilities under the University's academic misconduct code, see <http://www.ou.edu/provost/integrity-rights>.

**Reasonable Accommodation:** Here is the University's policy on accommodation of students with disabilities.

*The University of Oklahoma is committed to providing reasonable accommodation for all students with disabilities. Students with disabilities who require accommodations in this course are requested to speak with the professor as early in the semester as possible. Students with disabilities must be registered with the Disability Resource Center prior to receiving accommodations in this course. The Disability Resource Center is located in Goddard Health Center, Suite 166, or by calling (405) 325-3852 or TDD only (405) 325-4173.*
